Welcome to Orlando!

Greetings!
On behalf of the leadership of the Society of Clinical Psychology (Division 12, American Psychological Association), I welcome you to Orlando. This brochure is designed to give you an overview of the Society’s convention programming. Given the scope and breath of our program, I encourage you to consult the online program (or the paper version, if that is your preference) for greater detail than we are able to provide here.

The theme for the Division’s convention programming this year is “Multiple avenues to enhancing patient care”. As you can see, Drs. Meredith Coles and Brandon Gibb (our 2012 program chairs) have assembled a strong collection of invited addresses, paper sessions, and posters, all designed to encourage meaningful exchange. As we continue to accumulate research and clinical understanding of the full array of behavioral disorders, the field is growing in recognition that multiple approaches to psychological care are needed, to address diverse clinical needs. In an effort to foster integration of science and practice, this year’s convention program has also forged links with programming provided by related divisions.
I sincerely hope that you enjoy the Society’s convention program.
Dr. J. Gayle Beck
President

Program Chairs Welcome
We are excited that you have taken the time to join us for this year’s meeting and are confident that you will find many opportunities to learn while you are here. The Division 12 program has a lot to offer including invited addresses spanning from mechanisms underlying mental illness, to dissemination of evidence-based treatments, and finally to worldwide internet interventions. The additional programming also provides ample opportunities to further your expertise in areas of specialization and broaden your knowledge in new areas. Finally, you will also see that there are several opportunities to enjoy time with colleagues. We are excited about this year’s program and hope that you will agree!
Drs. Meredith E. Coles and Brandon E. Gibb

Preconvention Workshops: Please consider taking one of our Preconvention CE workshops and getting even more out of your Convention!

**CE WORKSHOPS**

**120TH APA ANNUAL CONVENTION**

**AUGUST 1, 2012 • ORLANDO, FL**

**A Cognitive Behavioral Approach to Weight Loss and Maintenance**

(This workshop is jointly sponsored by Division 12 (Society of Clinical Psychology) and the APA Continuing Education Committee)

**CE Credits:** 7  
**Enrollment Limit:** 75

**Workshop Description**

This INTERMEDIATE experiential workshop presents a cognitive behavioral program, based on evidence-based strategies, aimed at facilitating change in dieters’ thinking so they can make permanent changes to their eating habits. Roleplays will illustrate essential techniques such as how to help dieters motivate themselves daily, use good eating habits, deal with hunger, cravings, and emotional eating, and get back on track immediately. Issues of reluctance, unfairness, deprivation, disappointment, discouragement, rebellion, and other roadblocks to success will also be discussed.

**Leaders:** Judith S. Beck, PhD, and Deborah Beck Busis, LCSW. Beck Institute for Cognitive Behavior Therapy, Bala Cynwyd, PA

**Date:** Wednesday, August 1, 2012  
**Time:** 8:00 am–3:50 pm  
**Location:** Hilton Orlando Hotel (6001 Destination Parkway)

Evidence-Based Psychosocial, Pharmacological, and Combined Approaches to Treatment for ADHD

This workshop is jointly sponsored by Division 12 (Society of Clinical Psychology) and the APA Continuing Education Committee.

CE Credits: 7
Enrollment Limit: 75

Workshop Description
This INTERMEDIATE workshop provides an overview of evidence-based assessment and treatment of children and adolescents with ADHD. Presenters provide active training in evidence-based assessment of ADHD and the implementation of the three evidence-based psychosocial treatments: behavioral parent training, behavioral classroom interventions, and intensive summer treatment programs. Presenters incorporate cutting-edge research evidence supporting the use of these treatments alone and in combination with stimulant medication.
