Dear SCP Members,

We cordially invite you to join your colleagues for a truly exceptional educational and career-building experience at the 2017 APA Convention in Washington, D.C.

This year’s SCP (Division 12) Program has much to offer, with symposia, workshops, and individual presentations addressing today’s most relevant issues in the practice, research, and professional development of clinical psychologists. We have made a special effort to include sessions relevant to the broad range of professional settings and sub-disciplines represented in our field. In line with SCP’s top priorities, you will also notice that we have maintained a strong focus on programming for graduate students and early career professionals. As always, we welcome your feedback and suggestions, as we strive to improve our programming each year.

The 2017 SCP Program was created to offer diverse and broad opportunities for learning, as well as opportunities to network with both established and upcoming leaders in the field. In particular, we hope you will join us for our Friday evening programming, which begins at 4:00pm with Dr. Michael Otto’s Presidential Address, followed by the Speed Mentoring Event, Social Hour, and Awards Ceremony.

We sincerely value your membership and engagement in our Division, and we look forward to seeing you in August!

Your 2017 Program Chairs:

Lindsey B. Hopkins, Ph.D.

Jasper A. Smits, Ph.D.
Welcome to the 125th Annual APA Convention in Washington, DC

This is a very exciting year for the Society of Clinical Psychology (SCP) at the APA Annual Convention in Washington, DC, August 2-6, 2017. This year we are taking steps to better identify our members, fellows, award winners, speakers, and board members. At the conference, please come by the Division Services Booth to get your ribbon, identifying yourself as a Division 12 member and your role at the conference. These ribbons will make it easier to identify your Division 12 colleagues and to be able to know and congratulate our award winners, achievers, and service providers.

Our SCP Convention Co-Chairs, Drs. Jasper Smits and Lindsey Hopkins, have put together a sensational program of cutting-edge presentations that span the science-to-practice continuum. SCP-specific presentations start on Wednesday with three pre-convention workshops. The first is presented by a team of specialists from Section 9, chaired by Dr. Phillip Kleespies, detailing current strategies for managing the behavioral emergencies that arise in clinical practice. The second is presented by Dr. Kate McHugh and provides a crucial update on strategies for dual diagnosis patients. The third is presented by Dr. Adele Hayes and specifies the application of principles of exposure therapy, wellness, and resilience to the treatment of depression.

Also, please make sure to arrive early for the main sessions beginning at 8:00AM on Thursday, August 3. This day starts with exciting Invited Addresses for SCP Sections 2 and 3, followed by the unique opportunity to be first in line for new information on current National Institute of Mental Health (NIMH) priorities as detailed in an Invited Address by our new NIMH Director, Dr. Joshua Gordon.

The afternoon on Thursday brings Invited Addresses from SCP Sections 7 and 8. SCP Invited Addresses continue on Friday, with Dr. David Miklowitz providing an update on the dramatic benefits that psychosocial interventions can bring to patients with bipolar disorder. Saturday brings an SCP Section 9 address on cognitive and personality testing followed later in the day by, SCP Invited addresses by Dr. Steven Safren on psychological care in medical settings, and perspectives on personalized psychological treatment by Dr. Robert DeRubeis.

These fantastic invited events are complemented by an amazing program of accepted symposia and poster and skill-building sessions. For example, on Saturday, one can attend self-care skills for psychological practitioners followed later by a comprehensive series of presentations on the latest research on PTSD treatment as evaluated by the STRONG STAR project. We have also aligned a strong series of events on Friday evening that progress from the Presidential Address at 4:00 to our second annual Speed Mentoring event during the Early Career/Student Social Hour at 5:00. Make sure to sign up for speed mentoring if you are an early career professional or a graduate student. We then follow these events by the Division 12 Social Hour and Awards Ceremony at 6:00. Please make sure to come to this social event to see our award winners and to spend time with your valued colleagues. I very much look forward to meeting you at the 125th Convention; happy covfefe and see you in Washington!

001 – Behavioral Emergencies: Acquiring Skill in Evaluation and Management

CE Credits: 4
Enrollment Limit: 50

Workshop 001 is cosponsored by Division 12, Society of Clinical Psychology.

Workshop Description
This intermediate workshop presents evidence-based and evidence informed means for evaluating and managing the major clinical or behavioral emergencies in psychological practice (i.e., states in which a patient is at imminent risk of suicide, violence to others or becoming a victim of violence). A cultural model of suicide risk assessment that includes cultural precipitants and meanings is presented as well as structured and evidence-based decision-support tools for assessing violence risk.

Leaders: Joyce Chu, PhD, Palo Alto University; Marc Hillbrand, PhD, Connecticut Mental Health Center, New Haven, CT; Dale E. McNiel, PhD, Langley Porter Psychiatric Hospital and Clinics, San Francisco, CA; Kristyn Zajac, PhD, University of Connecticut; Phillip M. Kleespies, PhD (Chair), VA Boston Healthcare System, Boston, MA

Date: Wednesday, August 2, 2017
Time: 8:00-11:50 a.m.
Location: Renaissance Washington, DC Downtown Hotel, 999 Ninth Street, NW

Fees: Advance (4/17-6/30) Regular (7/1-8/1) On-Site (8/2-8/6)

Continuing Education Statement
This CE workshop is sponsored by the APA Continuing Education Committee (CEC). The CEC has reviewed and approved this workshop to offer CE credits for psychologists. The APA CEC maintains responsibility for the content of the programs.
002 – Dual Diagnosis: Evidence-Based Treatment for Co-Occurring Substance Use and Mood/Anxiety Disorders

CE Credits: 4
Enrollment Limit: 30

Workshop 002 is cosponsored by Division 12, Society of Clinical Psychology.

Workshop Description
Substance use disorders are highly prevalent among individuals with anxiety and mood disorders and can interfere with the effectiveness of cognitive behavioral therapy (CBT). Although mental health and substance use problems were traditionally treated separately, the field reached a consensus that these conditions should be addressed concurrently. This intermediate workshop focuses on identifying and addressing substance use and substance use disorders in the treatment of mood and anxiety disorders. Attendees participate in hands-on exercises to practice evidence-based CBT skills for the treatment of this population.

003 – Exposure-Based Cognitive Therapy: Application of Principles of Exposure to Depression

CE Credits: 4
Enrollment Limit: 30

Workshop 003 is cosponsored by Division 12, Society of Clinical Psychology.

Workshop Description
This introductory-to-intermediate workshop presents a treatment for depression that applies principles of exposure from the treatment of anxiety disorders to depression and also integrates principles of wellness and resilience. Exposure-based cognitive therapy (EBCT; Hayes et al., 2007, 2014, 2015) aims to reduce relapse by targeting three specific risk factors: (1) chronic unproductive processing; (2) avoidance and (3) decreased reward sensitivity and processing of positive emotions. Participants learn techniques to target these risk factors and increase flexibility, healthy processing of emotional experiences and resilience.
